## Iron Out Differences in President's Relief Bill

Senator Carter Glass, Representatives Edward Taylor, Clifton A. Woodrum and Senator Alva B. Adams

To iron out all differences in the senate and house versions of the president's \$725,000,000 relief bill, senate and house conferees meet in Washington. The conferees struck out an apparently harmless phrase which would have prohibited contributions by federal employees to political functions such as the \$100-a-plate Jackson Day dinners. The conferees also denied relief to aliens unless they have become citizens or show such intention, and accepted the senate amendment prohibiting WPA from dropping more than 150,000 persons from the relief rolls during winter. The conferees pictured are, left to right, Senator Carter Glass of Virginia, Representatives Edward Taylor of Colorado and Clifton A. Woodrum of Virginia, and Senator Alva B. Adams of Colorado.

## Columbiana's Enterprise Manufacturing Co. To Put Machine Shop Into New Addition

### LARGE VOLUME OF WORK LOOMS

Large "Branner" Machine Is Shipped Off To Russia

COLUMBIANA, Feb. 2.—The Enterprise Manufacturing Co. is preparing to expand its machine shop activities to the large new addition, measuring 154 by 112 feet, which will soon be ready for occupancy.

Work was started last summer on the new structure which is an important addition to one of the chief industries of Columbiana and which will increase largely the facilities of the Enterprise Co.

Heat units have been put into commission, sufficient to enable workmen to marry on the work of installing cranes and other machinery. However, the heating system will not be completed until the largest crane has been put in place.

There are three crane runways to accommodate two five-ton cranes and one 25-ton crane. Next week the wall of that part of the plant, of which the new structure is an extension, will be torn out, thereby throwing the new addition

## FOREIGN PLANE ORDERS QUESTIONED

### 3 In N. Georgetown Holdup Go to Pen

### YOUTHS HANDED LONG TERMS BY FEDERAL COURT

Alva Stoffer, Millville, Draws Sentence of 25 Years

TWO COMPANIONS GET 10 YEARS EACH

Plead Guilty to Slugging And Robbing Geneva Whinnery

Three Columbiana county youths who participated in the North Georgetown postoffice holdup last Dec. 22, which netted \$85 cash, were given federal penitentiary sentences today by Federal Judge Paul Jones at Cleveland.

Alva Stoffer, 20, of Millville, was sentenced to 25 years. Glenwood Yeagley, 22, of Moultrie, and Ernest DePalmo, 20, of Malvern, received 10-year terms.

The trio pleaded guilty to slugging and robbing Miss Geneva Whinnery, 19, acting postmistress at North Georgetown, the night of Dec. 22 as the girl closed the combination general store and postoffice for the day.

Their apprehension less than a week after the crime was committed was the result of an investigation by Salem state highway patrolmen, headed by Corp. W. E. Arvey, police and U. S. Postal Inspector J. Ivey, Jr., of Akron.

The officers first nabbed Stoffer and DePalmo, who implicated Yeagley. They gave detailed accounts of the holdup in their confessions at the patrol barracks.

The youths told how they planned the robbery, executed it and fled in DePalmo's automobile, a yellow-trimmed machine which was easily traceable. At the old Tolson farm on the Depot road, near Salem, the trio opened the cash box they had wrested from Miss Whinnery, kept the money and burned checks and money order blanks.

### County Studies 2-Way Radio as Aid In Policing

LISBON, Feb. 2.—A program providing for the installation of a central radio station at the county jail connecting all parts of the county in a two way radio hook-up is under consideration by county authorities as a means of combating crime.

The plan has the endorsement of Sheriff Harry Gosney and is being considered by the county commissioners. With two way radios already in use by the Wellsville police department and a similar system planned by East Liverpool, authorities believe the smaller communities will fall in line.

"The proposal would greatly facilitate criminal work in both urban and rural districts," Gosney stated. "Fleeing criminals would find avenues of escape blocked by police and sheriff's cars, placed by radio contacts at the most strategic points."

### Columbiana Women Hurt In Auto Crash

Two Columbiana women were injured in one of two traffic mishaps occurring near Columbiana Wednesday night.

Mrs. Maude Thompson, 40, and Mrs. Helen Hackathorne, 38, were treated for head injuries after the machine Mrs. Thompson was driving ran off the Route 7 highway, about two miles south of East Fairfield, and struck a telephone pole.

State patrolmen investigated the accident at 8. The machine was damaged badly.

Sam J. Welsh, 54, of Columbiana was arrested by State Patrolman James White last night on Route 7, between East Fairfield and Rogers, on a charge of driving while intoxicated. State Patrolman James White arrested Welsh after his car went into a ditch.

The defendant pleaded guilty before Mayor Arthur Myers at Columbiana this morning and was fined \$75 and costs.

### Robs Mails

TOLEDO, Feb. 2.—Grover Hantel, 30, part time postoffice employee at Continental, was free today under \$1,000 bond after pleading guilty before U. S. Commissioner John Budd to a charge of taking \$3.50 from a letter.

### Red Cross Aids Chilean Quake Sufferers

Mrs. Myra Woodruff, secretary of the Salem Red Cross chapter, was informed today by Norman H. Davis, chairman of the American Red Cross, that contributions are being accepted by the Red Cross units everywhere to aid the Chilean earthquake sufferers.

His letter reads: "The Republic of Chile has been visited by one of the most destructive earthquakes in the history of the western hemisphere. Official sources report that the list of dead will exceed 30,000 and the injured 50,000. The catastrophe has overwhelmed the nation and its resources are being taxed to the limit."

National headquarters already has made a direct contribution of \$10,000 to the Chilean Red Cross, and vaccines, serums, powdered milk and other supplies have been dispatched by army and the Pan-American Airway planes to the value of an additional \$10,000. The American Red Cross field director stationed with the army at the Panama canal zone was sent with the planes to the scene of the disaster.

Some of the other National Red Cross societies, as well as governments, are aiding in various ways, but the extent of the catastrophe is so great that considerable additional help is urgently needed. I am, therefore, asking all chapters to announce to the public that they will accept contributions, to be remitted to national headquarters."

At Lisbon today a plea for contributions on behalf of Chilean earthquake victims was made by Rev. John Cameron, county Red Cross chairman.

### SCOUT, 4-H WORK COMBATS CRIME

Juvenile Judge Reveals Church Work Antidote To Delinquency

LISBON, Feb. 2.—Activity in church work, scouting and 4-H clubs were recommended as an antidote for juvenile delinquency in a report prepared by Juvenile Judge H. W. Hammond, covering a period from Feb. 9, 1933 to July 9, 1938.

The report characterized church work as a positive guarantee against delinquency. During the period covered by the report 3,500 delinquent and problem boys and girls were contacted by the office, the judge stated. "Not one church worker was found in the group," he added.

Only five offenders among the 3,500 contacts were boys scouts, according to the report. One was a first class scout; another a second class and three were tenderfeet. No delinquencies were found among girl scouts or 4-H club members.

Intemperance and immorality in parents was characterized as the most potent cause of juvenile delinquency. Excessive drinking in the homes involved accounted for 290 delinquencies. The number of offenders from broken homes was listed at 165. Shiftless parents accounted for 133 cases and over-indulgent parents for 67 cases.

One hundred and five boys and 70 girls were committed to industrial homes during the period covered. Another 174 were sent home on probation. Two hundred and

"The word Christian means to be Christ-like," he continued adding "and it is the life that men live which proves what they are. Jesus said: 'By their fruit ye shall know them'."

### PROPOSED SALE ABROAD AROUSES STORMY DEBATE

Can Builders Supply Both U. S. and France Is Big Query

MANUFACTURERS MAY BE CALLED

Administration Leaders Uphold Policy At Hearing

(By Associated Press)  
WASHINGTON, Feb. 2.—Conflicting views on the ability of the American aviation industry to supply the army with 3,000 new planes and fill foreign orders at the same time brought a Republican demand today that the senate military committee summon manufacturers for expert testimony.

Senator Austin (R-Vt.) said the five Republican members of the committee wanted first hand information because this was a vital question in the controversy over proposed sale of the latest type of military planes to France.

The projected sale aroused a stormy debate in the senate yesterday, with critics of the President demanding that he state his foreign policy publicly.

In Chicago former President Hoover told the council on foreign relations last night that Mr. Roosevelt has been advancing on an unprecedented expansion of foreign policy which might lead to war. He appealed to congress to "have this adventure clarified before we go blindly into great increases in armament."

An assertion that the domestic armament program would be slowed considerably if planes were sold to France was made by a member of the senate military committee, who declined to be quoted by name.

On the other hand, C. Grant Mason of the civil aeronautics authority was reported to have testified that even if the French purchased 60 light bombers they could obtain delivery long before the army would have funds available for its own new craft.

Senator Barkley of Kentucky, the Democratic leader, told the senate during yesterday's argument there was no truth in imitations that foreign sales would retard development of the army air corps to its proposed 5,500 planes.

Sufficient Capacity  
He declared that plants in this country had sufficient capacity to take care of army needs and to fill foreign orders.

If the record of the senate military affairs committee could be

## ANTIDOTE

Sumner Welles, undersecretary of state, has made an official reply to the accusation that the United States has no foreign policy. Its policy is maintenance of peace, he says.

That description is vague. Everything being done in the world today is in the name of peace, believe it or not. Even Germany and Italy, hotbeds of martial spirit, are paying lip service to the dove of peace.

Mr. Welles undoubtedly is sincere, but it is not untimely to remember one of the lessons of the World war. The American people, then as now, had a tremendous capacity for moral indignation. Propaganda, which Mr. Welles suspects is being used today, brought them to the boiling point more quickly, but it wasn't essential. They were capable of generating their own heat.

Foreign policy is determined by political expediency. The United States will be devoted to maintaining peace until and unless popular opinion makes that an untenable position. President Wilson "kept the country out of war" until it became evident that the country no longer wanted to stay out of war.

The United States needs a greater interest in minding its own business, to go along with its capacity for moral indignation. If it had that quality in abundance, propagandists couldn't get to first base. There would be little danger of moral indignation boiling over.

## LET'S HAVE THE SECRET

When Eamon de Valera visits the United States this year he should explain how his beloved Eire manages to find places for poets and scholars in politics.

Of course there's nothing new about it; these supposedly impractical souls frequently have been subsidized with government appointments. But Ireland has a special way of doing it.

William Butler Yeats, who died this week at the age of 73, found time and opportunity to be a senator for a number of years while contributing to Irish intellectual life with his poetic musings and plays.

Douglas Hyde, president of the Free State, is a scholar, writer, and professor. When he was elected without opposition in May, 1938, he knew as much about politics as a chicken knows about Easter—and the same goes for Mr. Yeats when he entered the fray.

Yet he, in his time, and Mr. Hyde were able to contribute to the dignity and intelligence of their country, not by remote control, as such men do in the United States, but by being directly in politics. It's something the United States should know more about, if Prime Minister de Valera will divulge the secret.

## TO WHAT END?

In behalf of a large minority of American men something should be done about the deliberate drive afoot to make the country conscious of baldness.

The bright boys in advertising agencies who thought up this stroke of genius are going to hang themselves in their own rope. They underestimate the power of their medium.

Anything can be sold by advertising, even a bald head. Use enough shining pates in illustrations and little children will be wishing they had shining pates too.

Besides, Dr. Hrdlicka, the anthropologist, has just reported that the heads of brainy men are expanding all the time and that the expansion causes baldness.

So for the sake of men who still have their hair let the baldies sink back into the obscurity they crave. They don't mind if other men have hair. They can't help it if their thatched brethren are neither distinguished looking nor smart.

## OUCH

Under probation for a year and a day with a suspended sentence hanging over him, not to mention an \$8,000 fine and close to \$10,000 in customs penalties, George Burns is going to have a hard time convincing the radio audience from now on that he is the bright member of the well known team of Burns & Allen.

Crime does not pay. It's the fellow who gets caught evading the customs who pays, and that fellow would have to be George. What it was he bought for Gracie has slipped the popular mind by this time, but it won't slip George's. Perhaps about five years from now it may be good for a laugh on some program.

By that time Gracie may be the dumb one of the team again and George may have recovered his standing as the bright one.

## HOOVER DISCUSSES U. S. FOREIGN POLICY

CHICAGO, Feb. 2. — Herbert Hoover declared last night President Roosevelt's announced departure in foreign policy prescribed measures which would provide international ill will and possibly lead to war.

The use of coercion, such as economic sanctions, he said, was an integral part of President Roosevelt's proposed expansion of foreign policy, and asserted any form of coercion "is the straight path to war itself."

"No husky nation," said the former president, "will stand such pressures without bloody resistance. Those who think in terms of economic sanctions should also think in terms of war."

Mr. Hoover set forth his views in an address to the council on foreign relations and nation-wide radio audience. Gen. Charles G. Dawes, formerly vice president and ambas-

## SIGNS

In spite of rumblings of war, heavy snowfalls, stirrings among groundhogs anticipating spring, threadbare radio gags, futuristic hats for women, chicken pox and the common cold, this is a steadily improving world.

The first lady of the United States feted movie stars in the White House (that's what the story said was happening, at any rate). The picture that went with this bit of information showed 10 Hollywood personages and a presidential secretary all stretched out on the floor in comfortable positions.

Mrs. Roosevelt was in the middle, sitting on her feet, the way the Girl Scouts do when resting. It's one of the brightest signs that things are going to come out all right anyone could wish for. It shows the American people, following the first lady's example, are getting down to fundamentals again.

## THE STARS SAY:

For Friday, February 3

GREAT energy and initiative mark this day's doings, judging by major planetary operations, although this high-pressure attack may not always lead to the wished-for achievement. There is a menace of trickery, shrewdness and misconstrued writings or documents at the root of tangled transactions, which may be laid at the door of lawyers or other go-betweens. Watch these, change with prudence and due consideration, turn to aggressive action with determination and it is probable that a definite goal is within grasp.

Those whose birthday it is may find themselves keyed to high activities in putting over important projects with much vim and determination plus well-constructed plans. But detrimental influences in connection with promotion or developing these propositions may be wrapped up with lawyers, agents or with misconstrued or distorted correspondence or documents. Be vigilant in this, make changes sagaciously and perhaps high-pressure tactics may win out.

A child born on this day may be capable, enterprising, audacious and disposed to tackle and create big things. Still, it may be unsettled and given to sudden changes and reversals, through the spirit of high adventure and bold initiative. It may have a conspicuous pioneer spirit.

ness depended upon the nation's foreign policies and the source of its dangers.

The speaker dismissed the danger of military attack upon the United States by European and Asiatic dictatorships.

"That any of these dictatorships, whether Japan, Germany, Italy, or Russia, or all of them together, have the remotest idea of military attack upon the western hemisphere is sheer hysteria," he said.

"It will be said that we must be prepared to go across the seas and enforce lawful rights for American trade by military action. I do not agree with that thesis. There always comes a time, with patience, when such ends can be accomplished by the processes of peace."

## IF THE SPANISH WAR COMES OUT AS SOME OTHERS HAVE!

## Invisible "Specs" Are Said To Be Practical, Efficient

By LOGAN CLENDENING, M. D.  
IN ANSWER to several inquiries, let me say that the so-called invisible spectacles are practical and efficient and are recommended by competent oculists.

Invisible spectacles are shell-like cups of glass that fit over the eyeball. Another term for them is contact lenses. Certain kinds of ocular defects are better corrected with these than with ordinary spectacles. They are particularly recommended for their aesthetic qualities. Actors, actresses and those who have to appear in public often do not like to be seen with glasses and for them the invisible spectacles make a great appeal.

About 4000 people in the United States are now using them. They are by no means new, because the idea of invisible spectacles was suggested by Haschel, the English astronomer, in 1827. He thought of

them as having protective value. Then Mueller, a German optician, blew a glass for a patient who had a cancerous lid. It did duty for years, and proved that these glasses could be used without injury.

Dr. Clendingen will answer questions of general interest only, and then only through his column.

## Accurately Fitted Now

The present day contact lenses were introduced for a condition known as keratoconus, a thinning of the membrane of the eyeball which causes the cornea to protrude at the center. They used to be blown, because it was considered impossible to grind them on account of their thinness. When these blown lenses were used the oculist

had to try thirty or forty in order to get a pair that fitted. But about three years ago Carl Zeiss, the great optical instrument maker of Jena, was able to grind these lenses so that they can be accurately and properly fitted to any ocular defect.

Those who wear them say that they are perfectly comfortable and that they are not even aware of the glass being in the eyelid. Frequently they forget to take them out when they go to bed, and wear them all night.

The danger of breakage is slight. There never has been a report of damage to an eye from fracture of the glass. They are made so resilient that the thin shells can be dropped on a desk top and they will bounce.

## To Remove

To put them in the eye, the inverted shell is filled with salt solution and held on the top end of a little rubber suction tube, as one might hold an eye-cup. The head is lowered and the cup fitted into the eyelid. As the salt solution touches the eyeball there is a slight suction.

To remove them the process is reversed, the suction end of the rubber tube is placed against the glass and suction applied, and the glass drawn out.

When first used, they are worn for only an hour or two, but the wearer soon gets used to them and they can be worn indefinitely. They move with the movements of the eyeball, and are completely invisible.

Are you, too, a slave to choking mucus trickling down your throat due to colds? Is it spoiling your enjoyment of life? Is it making you feel miserable all over? Do you wake up in the morning with your nose and throat blocked with phlegm? Get some Mentholatum. This is a comforting balm containing menthol, camphor, and eucalyptus. Put a little in each nostril and rub it on the throat and chest. Happy relief quickly follows. Mentholatum helps to clear out mucus and aids in clearing the breathing passages. Brooks tossed a sack of mail on the platform of Leavittsburg station three miles west of here, and was to set himself to snare with a hook another bag on a post half a mile westward. A few minutes later, two other railway mail clerks in the car called to him but received no answer.

A man walking near the station saw the clerk's body fall from the speeding train and roll 200 feet along the right of way. Two hours later Brooks died of a fractured skull in City hospital.

## Tyrone Power Can't Appear On Air, Is Producer's Decree

HOLLYWOOD, Feb. 2.—If the barring of Tyrone Power from the air means that Producer Darryl F. Zanuck wants the movies to start a war with radio, it appeared today that he would have to do most of the fighting.

Little support was forthcoming elsewhere in Hollywood for the 20th Century-Fox head's opinion that radio hurts movie actors at the box office. Other studios avoided formal statements, but several admitted they considered their stars' value definitely increased by air engagements.

A spokesman for Zanuck called the producers' action the "opening gun" which might lead to the withdrawal of other Fox stars from radio. How it would affect Fox's Don Ameche, who went into pictures with a reputation built as an actor on the air, was unanswered.

Zanuck's action, announced yesterday, will remove his super-star after next Sunday from a dramatic program on which he has been appearing. The producer said he was taking cognizance of many protests from film exhibitors, who contend that when stars are on the air patrons stay home to listen to them. Radio sources, however, said Power quit the program in an argument over introduction of a commercial announcement between acts of his play.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pen and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

**Be Seeing You**

tectives Charles Scott and J. M.  
Mabe, raided a rooming house,  
found nobody home but confiscated  
two suitcases containing eight gal-  
lons of whiskey.  
Attached to one of the suitcases  
was a note: "I've been here come  
down to the house."  
They added a postscript: "We've  
been here, too. Come down to the  
police station."

**HOUSE TO KEEP  
MATCHING PLAN**  
Scans Relief Bill Before  
Voting On Senate  
Amendments  
(By Associated Press)  
COLUMBUS, Feb. 2.—Determined  
to preserve the matching require-  
ment, the Republican leadership in  
the Ohio house of representatives  
went over the \$5,000,000 temporary  
poor relief bill with a magnifying  
glass today before bringing it up  
for a vote on senate amendments.  
They wanted to make sure that  
the amendments did not nullify a  
clause requiring the cities and coun-  
ties to spend a dollar of local funds  
for each dollar they would receive  
in state aid.  
The amendment particularly scruti-  
nized would recognize the local  
government's January relief expendi-  
tures and encumbrances as  
matching funds. In other words,  
if a city spent or encumbered \$100-  
000 for relief last month, it would  
be eligible to apply for a similar  
amount in state funds.  
McCulloch's Warning  
Speaker William McCulloch, who  
warned that the rural bloc in the  
house would go along with no re-  
fined bill unless matching was re-  
fined, wanted to determine if, af-  
ter January, a city could obtain  
state grants equal to its monthly  
relief debt.  
He indicated that if the matching  
clause was not impaired, the house  
would concur in the senate amend-  
ments and send the five-month ap-  
propriation measure to Gov. John  
W. Bricker for his signature.  
The Republican leadership of the  
senate, which passed the bill late  
yesterday, 32 to 2, agreed with city  
officials that the bill was not sat-  
isfactory. The cities contend they  
have no funds to match the state  
money.  
However, Sen. Frank Whitmore,  
Republican floor leader, said house  
leaders promised to go along on a  
bill to appropriate another \$1,000-  
000 or more if the funds in the  
present measure were found to be  
inadequate.  
Senator Leo M. Ascherman (R-  
Cuyahoga) generally expressed the  
cities' viewpoint when he declared  
"this bill is no good to Cuyahoga  
county as it now stands with the  
matching requirement."  
"We should practice economy,"  
he added, "but we can't feed peo-  
ple on economy."  
Offers Amendment  
He offered an amendment to re-  
cognize cities' expenditures for  
Works Progress Administration and  
National Youth Administration pro-  
jects as matching funds, but it was  
rejected.  
The dissenting votes against the  
bill were cast by Senator Don R.  
Thomas (D-Montgomery) and Tom  
L. Gallagher (D-Cuyahoga).  
The bills vest the administrative  
authority in the state welfare di-  
rector, empowers the state emergency  
board to distribute the \$5,000,000,  
and requires counties to set up a  
central agency for compiling infor-  
mation on every person receiving  
any form of public assistance.  
No provision is made for paying  
of 1938 relief deficits totaling more  
than \$3,378,000. To cope with this  
situation, Sen. Richard Milroy (R-  
Lucas) introduced a bill which  
would enable the state to issue 10-year  
bonds to fund relief deficiencies. No  
principal payments would be neces-  
sary for five years.  
The house also turned its atten-  
tion to means of releasing local  
funds for relief. It was expected  
to vote today on bills which would  
free inheritance and intangible  
taxes so that they might be spent  
to aid the indigent.  
Extend Cigaret Tax  
A bill extending the cigarette tax  
(one cent on each 10 cigarettes)  
through March 31, 1941, was made  
ready for the governor's signature  
after the house concurred in sen-  
ate amendments, 118 to 8. The  
measure repeals a clause ear-mark-  
ing the approximately \$7,500,000 a  
year revenue for the school.  
Two appointments of the govern-  
or were confirmed unanimously  
by the senate. They were Dr. R. H.  
Markwith of Akron as health di-  
rector and George C. McConaugh-  
rektor and George C. McConaugh-  
rektor as Cleveland's public utilities  
commissioner.  
The senate and house planned  
to adjourn late in the day for the  
weekend.

**GUARD SHAKEUP  
IN PEN HINTED**  
Illicit Traffic in Drugs  
And Liquor at Ohio  
Pen Charged  
(By Associated Press)  
COLUMBUS, Feb. 2.—There were  
indications today that a shakeup in  
the guard personnel and perhaps  
the removal of Deputy Warden  
August Puk might result from an  
investigation of Ohio penitentiary  
ordered by Welfare Director Char-  
les L. Sherwood.  
Warden James C. Woodard was  
instructed to clean up what Sher-  
wood described as an illicit traffic  
in drugs and liquor or lose his  
job. Sherwood said that he also  
was not satisfied with the cooper-  
ation Woodard had received from  
Puk.  
Both Woodard and Puk, named  
to their positions by former Gov.  
Martin L. Davey, are under civil  
service and unless they resigned  
it would be necessary to file ouster  
charges with the civil service com-  
mission to remove them.  
Puk has general charge of op-  
erations inside the walls of the cen-  
tury-old prison.  
Sherwood indicated that there  
would be some guard changes be-  
cause of information he had re-  
ceived that some of them were in-  
volved in the bootleg traffic. He was  
represented in the investigation  
by William F. Amrine, superintendent  
of corrections.  
The director told Woodard dur-  
ing a conference late yesterday  
that the "mess" must be cleaned up  
or he would lose his job.  
"I have definite evidence of the  
traffic," Sherwood declared later.  
"This is not a reflection upon the  
integrity of Warden Woodard, and  
I have complete confidence that he  
will be able to clean up the mess."  
Sherwood said the warden was  
"heartily in accord" with the in-  
vestigation, although he did not  
believe conditions to be "as bad as  
pictured." William F. Amrine, newly  
appointed superintendent of correc-  
tions, was assigned to assist in the  
inquiry. Amrine attended yester-  
day's conference.  
Not only did the drug and liquor  
traffic exist, Sherwood said he had  
learned, but special favors were  
being purchased by some convicts  
"from guards who are not loyal to  
their warden."  
"It will be necessary to strength-  
en materially the discipline for  
guards and convicts as well as  
stamp out the illegal traffic," he  
added.  
Information given him in affi-  
davits and statements by former  
and present employees of the prison  
led to his demand for a cleanup,  
Sherwood said, adding he had dis-  
cussed the matter earlier with  
Woodard.  
The investigation, another of a  
series involving the prison, was de-  
manded four years to the day  
after Woodard was named Warden  
by former Gov. Martin L. Davey.  
In January, 1935, Davey initiated  
a state investigation of the prison  
and lodged charges of maladminis-  
tration against Warden Preston  
E. Thomas. During a hearing on  
the ouster proceedings, Thomas  
resigned and the charges were  
dropped. On Feb. 1, Davey promot-  
ed Woodard from deputy warden  
to warden.  
Current reports that Amrine  
would succeed Woodard should the  
warden be ousted were termed  
conjecture by Sherwood.  
"I am not after Woodard's job,"  
the director said.

Leo Carrillo, Jane Withers and Henry Wilcoxon in a scene from "Arizona Wildcat", which is featured Friday and Saturday at the State.

Jane Withers has Leo Carrillo, Pauline Moore and William Henry with her in her latest and, by far, the best of her film escapades, "The Arizona Wildcat", which shows Friday and Saturday at the State.

Henry Wilcoxon and Douglas Fowley also have important roles in the picture, which tells the story of a clever youngster who mistrusts the efforts of law forces in a small western town to clear out a gang of rustlers and desperadoes.

In "Early Days of West" the story takes place in the early days of the west, when gang rule held the law in its hands. The youngster enlists a happy-go-lucky, mild mannered Spaniard, played by Carrillo, in her campaign to round up the gang. She bluffs the town into thinking her friend is a dead shot and quite a character and, between them, they manage to clear the name of young Henry, who has been framed as a murderer by the rustlers.

The film gives the young actress plenty of action and features several sequences where she sings. In one of the scenes she sings the old favorite in Spanish.

Showing tonight and continuing through Saturday is the Walt Disney color cartoon, "Ferdinand the Bull", which tells the story of a bull that "just liked to sit and smell the flowers." The cartoon is made without a voice, but told by a narrator who reads the story exactly as it is in the Munro Leaf best seller of the same name. All those who have read the little best-seller volume titled "The Story

of Ferdinand" now can see this amazing and amusing young bull's screen debut.

## No Desire to Fight

The story, now beloved by millions, concerns a bull who, unlike his little brothers and cousins, had no desire to aim for a bull ring career in Madrid, but wished to spend all of his life sitting idly under a tree drinking in the beauties of nature.

The highlight of the story comes when Ferdinand is stung by a bee just as men from the bull ring in Madrid come to the pasture to pick out the fiercest bull of the lot. Naturally, pacifistic Ferdinand is chosen, and his adventures from there on make for a highly amusing adventure.

The Three Mesquiteers, John Wayne, Ray Corrigan and Max Terhune, return in "Sante Fe Stampede", which shows at the Grand Friday and Saturday. The Thursday only feature, at the State is, "Devil's Island", starring Boris Karloff in a dramatic role of a convict who escapes from the French penal colony.

### THE COUNTY JAIL

Editor The News:

Practically every grand jury, county visiting board, federal department of justice, and state fire marshal certainly cannot all be wrong about our county jail.

A few years ago two Salem men who failed to "help feed the kitty", spent six months in that unhealthy bull pen on liquor charges. Mr. Van Blaricom's suggestion about the "saintly" expresses my sentiment. If would-be saints would come down to earth and take interest in their fellow men, many a small offender would never reach the jail stage.

As I understand God's word, though people make mistakes, true religion lies in aiding less fortunate by helping to raise their moral and living standards.

A good job for the saintly of our county would be to investigate the system used in "investigating rackets." With all the information placed in the hands of Prosecutor Stouffer during the last two years, how did Salem escape with one minor indictment in four investigations? Were the gambling devices used at the Davey picnic, July 24 Salem owned? Or was that getting too hot to handle? How about the Sunday liquor selling? Or were they given a special permit?

The 308 thousand dollars spent on our court house, should have included a sanitary jail, but some things about that job actually smelled of waste, lack of good business, or otherwise. What private job could pay four bosses full time with only two to six men working at times?

What became of stone that men were paid \$1.50 per hour to dress. Where did the county truck deliver them?

Thanks to Judge Lones' probation system a number of minor offenders escape serving a jail sentence. And, considering the calibre

of some of our enforcement officials and their methods. I congratulate the judge.

I suggest that the county build a modern reasonable priced sanitary jail for small offenders, and use the old one for crooked officials and major offenders, if and when we secure a prosecutor of the Tom Dewey type.

# QUAKER CAGERS OUT TO AVENGE 45-9 DEFEAT

## J. DICKEY LOST TO QUAKERS IN FRIDAY BATTLE

### Salem Reserve Strength Hit by Loss of Veteran Player

With memories of the worst defeat of his coaching career still fresh in mind, Coach Herb Brown takes his 1938-39 crop of Salem High school basketball to Massillon tomorrow night to see what can be done about avenging this set-back.

Two years ago Brown's team was handed a 45 to 9 trimming on the Massillon floor by a Massillon team which later advanced to the finals of the state tournament.

The Quakers partially atoned for this defeat by losing to the Tigers, 30 to 28, here last year, but the victory was not as sweet as it would have been had it been scored on the Massillon court.

Tomorrow night's game may be the last opportunity the Quakers will receive to complete their revenge for the top-sided licking inasmuch as the Salem-Massillon basketball relationship may not be resumed after this season.

Coach Paul Brown of Massillon declared last season that his team will play no more games in Salem because of the small floor here. If he continues to uphold this declaration the Salem-Massillon relationship may be dropped because it is Salem's turn to have the game next year.

Coach Herb Brown, however, has said that he is willing to have his team play Massillon on any floor, regardless of size, and will play the Tigers every year at Massillon if Salem school officials agree to the arrangement.

In order to prepare themselves for play of the spacious Massillon floor, the Quakers practiced Tuesday night at Leontia's new gym and last night on Mount Union college's court.

Let of Jim Dickey from the squad is expected to injure the Quakers reserve strength for the important game, Dickey, who was a regular last year, was declared ineligible for competition Wednesday because of scholastic difficulties.

Although he has not figured prominently in the Quakers games to date, Dickey has been valuable to Brown as a reserve. He has played in all of the Quakers 10 games but has been in the starting lineup only five times.

Coach Brown indicated today that he will probably use Jimmy Kleon in place of Dickey in the first line of reserves. Kleon has been improving rapidly in recent games, showing increased defensive strength along with good offensive work. He has appeared in three varsity games.

Brown plans no change in his starting lineup, unless one of the regulars fails to show up well in practice today. He will probably start Bill Schaeffer at center, Amos Dunlap and Glenn Duncan at forwards and Burton Sutter and Glenn McLaughlin at guards.

McLaughlin has recovered from a knee injury suffered in the Warren game last Friday night.

Along with Kleon, Brown will have Les Knepp available for reserve duty.

Boasting a record of eight wins in 10 games, the Tigers are rated as one of the best teams in Ohio. Their two defeats were suffered at the hands of the unbeaten New Philadelphia Quakers, 24-19, and the Barborton Magics, 33-31.

Massillon has posted victories over Sharon, Pa., 27-22; Canton Lehman, 54-21; Youngstown Chabney, 45-19; Canton McKinley, 26-17; Alliance, 30-25; Newark, 25-20; Canton Lehman, 52-20, and Akron St. Vincent, 25-24.

## WANER FAVORED IN GOLF EVENT

### Doped to Repeat as Winner of Baseball Players' Tournament

LAKELAND, Fla., Feb. 2.—An aggregation of major league stars such as seldom gets together in diamond started firing here today in qualifying tests of the annual baseball players golf tournament.

A score or more players who put as much punch behind a drive as they do in lifting one over the fence set out to try for a berth in the championship flight and a shot at Paul (Big Poison) Waner, the Pittsburgh Pirate outfielder who won last year.

Two 18-hole qualifying rounds were scheduled today. Match play will start tomorrow with the first 16 assigned places in the title fight.

Waner, rated one of the best hitters among the baseballers, was a strong favorite to repeat, but in his path stood such formidable opponents as Wes Ferrell, the New York Yankee pitcher who won the inaugural tournament at Sarasota in 1936; Jack Russell, Chicago Cubs moundman, and Heinie Manush, Brooklyn outfielder.

Also in the running were Joe Medwick of the St. Louis Cardinals; Nick Altrock, Washington coach and funny man; Gerald Walker and Luke Appling of the Chicago White Sox; Paul Derringer, Cincinnati moundman; Bill Swift and Truett Sewell, Pittsburgh hurlers; Al Lopez, Boston Bees catcher, and Roy Coltenbine, Detroit outfielder.

## Breezy Briefs Of Sport From Various Spots

By EDDIE BRIETZ

NEW YORK, Feb. 2.—Two future Columbia mat rivals sent scouts to watch the Yale-Columbia jousts the other night, which is one for this book. . . Prof. Artie McGovern has the right idea. . . Pictures show him beginning his career as trainer of the Dodgers by massaging the splinters out of their heads. . . Mike Jacobs intends to run fight shows in the garden all summer to take care of the world's fair rush (he hopes). . . Doff that derby to Billy Petrolle, the old "Fargo Express" and one of the best. . . He's one fighter who knew when to hang up his gloves and leave 'em there.

Correction: Art Rooney says that yarn about Whizzer White returning \$6,000 of his \$15,000 salary is pure bunk. . . Joe Jacobs flew in from Detroit last night to head the Max Schmeling welcoming delegation. . . "Evil Eye" Finkle, who goes about the country putting the old hex on fighters, will tell you how he does it via the airways next Thursday.

Fred Waring, the radio maestro, let down the bars recently and permitted the Marquette cagers to watch his crew rehearse. . . Today Fred received a brand new basketball autographed by every member of the squad. . . Nattie Brown hit Detroit swearing he is not going into the tank for Tony Galento tomorrow night. . . Good. . . Schools all over the country have appropriated Jacksonville High's famous basketball song, "A ticket, a ticket, we crave another basket." . . Extra—Hamilton Junior High of Houston rang up 136 points the other night. . . Can anybody tie it?

The Philadelphia Evening Bulletin is exactly right—"You can't blame Pop Warner for upheavals of nature such as Pitt. Villanova and that fellow Davey O'Brien. . . Alice Marble, the well known thrush, has doped it all out between encounters at the Waldorf. . . Vines, she says, has such a flawless and orthodox style that it raises his opponent's play 25 per cent. . . On the other hand, Budge's technique is just unorthodox enough to cut 25 per cent off his opponent's efficiency. . . Which may account for the standing of the clubs in the pro league.

Dick Freeman prints it in the Houston Chronicle, so it must be so. . . A member of a foursome at Hermann park was about 120 yards from the green on the 15th hole. . . He sliced badly. . . The ball hit the trunk of a tree and bounced back at the golfer. . . Enraged, the gent swung at the ball, connected squarely in mid air, and believe it or not, the ball sailed down the fairway, onto the green and—into the hole. . . And with that one school is positively out.

## Reject Fly Rule

COLUMBUS, Feb. 2.—American association headquarters here announced today that the association chapter of baseball writers had rejected by a three to one margin the sacrifice fly rule which will be in effect in the majors in 1939.  
The rejected rule does not charge a hitter with time at bat if his flyout scores a runner.

## MOTORS WALLOP WARREN CAGERS BY 53-31 SCORE

### Baptists Class C Team Takes Measure of E. Palestine Rival

Taking a commanding lead in the first quarter and increasing their advantage in the second and third periods, the Althouse Motors, first half champions of the Class A city league, roared to a 53 to 31 victory over the Youngstown Pressed Steel cagers of Warren at the Memorial building last night.

The Motors piled up a seven point lead in the opening frame and outscored the Warren team, 13 points to 12, in the second period to hold a 31 to 18 lead at halftime.

Continuing their fast scoring in the third quarter, the Motors boosted their advantage to 22 points, 44 to 22. The teams played on even terms in the final period, making nine points apiece.

Bill Cope and Bob Jeffries collected 33 points between them to lead the Motors scoring. Cope caged seven field goals and two free throws to score 16 points, while Jeffries tallied 14 markers on five field goals and four charity shots.

The victory was the second the Motors have registered in inter-city competition this week and one of their most important triumphs of the season. The Pressed Steel team is first half champion of the Warren Industrial league.

The Baptists of the city's Class C league posted a one-sided win over the East Palestine Methodists in the preliminary game, taking the decision on a 31 to 14 score.

Balsley led the scoring as the Baptists moved into an early lead and continued to increase their advantage throughout the game.

## REDS' BASEBALL ROSTER LARGE

### Cincinnati Signs More Players Than Any Other Team

CINCINNATI, Feb. 2.—With crossed fingers, officials of the Cincinnati Reds let it be known today that they had more ball players signed up for the season than any other major league team.

Only seven men have not yet favored the front office with the big letter full of signed contract. Everybody else is in and a couple already are on their way to Tampa.

The latter include Lee Grissom, who gave formal notice last week that his ankle was "completely unimpaired" again—recovered from the effects of a late-season accident last year.

The officials had no idea what had come over their charges. They admitted this docility, apparently epidemic throughout the majors, was unprecedented.

"Of course, we hardly ever have holdouts anyway," said one "but look at the rest of the club. . . Everybody signing up without a peep about what they are worth."

Quite content, the officials persisted the thought that the famine holdout crop this year was depriving the game of its usual pre-season ballyhoo.

"People like to read about the boys signing their contracts," was the view taken, "just as much as they do about how this guy or that won't sign for peanuts."  
The Reds still to be heard from are Lew Riggs, Billy Myers, Ducky Cooke, Dutch Gehman, Ray Davis, Whitey Moore, and Frenchy Bordagaray.

## INTRAMURAL BASKETBALL

BY GAIL STEWART

Battling through one overtime period, the Ravens nosed out the Satans, 23 to 21, in the feature game of the intramural basketball program at the Salem High school gym last night.

A field goal by Benedict in the extra period gave the Ravens the victory after the score had been deadlocked at 21-all at the end of the regulation playing time. Antonio led the Ravens in scoring with seven points. Hancell scored eight points for the Satans.

The Barons, Five Aces and Tigers posted wins in other Class B league games.

The Five Aces coasted to their seventh victory in eight games by defeating the Wildcats, 26 to 19. Chappell rang up 11 points for the Barons while Dan tallied seven points for the losers.

The Five Aces coasted to their seventh victory, taking the measure of the Buckeyes, 53 to 12, with Limpore collecting nine field goals and two free throws for the winners. Zoccolo and Plegge shared scoring honors for the Buckeyes with three points apiece.

## BORICAN LOOMS AS ACE RUNNER

### Columbia Coach Thinks He's Best Track Man In Nation Today

BY BILL BONI  
NEW YORK, Feb. 2.—Last Saturday, after only three hours sleep, Dusky John Borican broke an 11-year-old Boston Garden record for 1,000 yards in his first race on a banked track. This Saturday, after a good night's rest, he will run two-thirds of a mile on the new Mill-Rose A. A. track at Madison Square Garden, and there's no telling what may happen.

The only prediction it's safe to make is that he probably will win from a field that includes Gene Venzke, Leslie MacMichael and Indiana's Mel Trutt. In fact Carl Merner, the Columbia coach, believes that in a very short time the track season's newest sensation will be winning everything he goes into, from a quarter-mile up to a mile.

"For my money he's the best runner in the country today," says Merner, who supervises Borican's workouts on the Columbia outdoor board track. "Look at his performances—2:12.6 for that 1,000 in Boston and on a poor track, 1:50 or better for the half mile, 47.3 for 400 meters, 14.8 for the 119-meter high hurdles. Besides that, in field events he's hit 23 feet 6 in the broad jump, 6 feet 2 in the high jump, 150 feet with the javelin and 126 with the discus. The boy would win points for you in any event."

And he's a picture runner. He combines Glenn Cunningham's poise with Venzke's grace. He runs smoothly, easily, never gets tightened up, and yet has a terrific kick at the finish. Give him a few more races and he'll be out there raising Cain with all the Cunningham-Rideouts, San Romanis, Penskes and Munks you can get together."

That's Borican's chief ambition—to run one really fine mile. The 23-year-old graduate student wants to prove to a doubting track world that there's nothing to the belief Negroes are constitutionally unfit to be distance runners.

## JOE MCARTHY ADMITS YANKS ARE IN AGAIN

### Views Fourth Straight Championship Ahead For His Team

BY SID FEEBER  
NEW YORK, Feb. 2.—The "siph-like" figure of Marse Joe McCarthy, down to a mere 186 pounds, ambled in from the banquet circuit today and made no bones about his calm confidence that the Yankees are a shoo-in for their fourth straight baseball championship.

If anything, Marse Joe feels his world champions are going to have less trouble and probably are going to be a considerably better ball club, with the newly-imported rookie strength, than that which waited away to titles in 1936, '37 and '38.

"Cleveland will be tougher," Joe said, "and Detroit should go good. Boston's question mark is young Tabor on third base, now that the Sox have traded Pinky Higgins. But I'm not kidding myself—I think the Yanks are the greatest ball club ever put together."

If you didn't know Marse Joe is manager of the Yanks, and, as such, has as much worry about his coffee and cakes as a Chicago snow-shoveler had finding work this week, you'd think he was having a tough winter of it. His tummy, which used to be as prominent in the Yankee dugout as Red Ruffing's hair, is no more. The reducing secret, if you girls want to know, was a simple matter of passing whenever the beer was served.

It seems whenever Joe drank beer, his appetite was whetted as well as wetted. In that condition he was sicker for a change, lots of it. All of which put the poundage on with the greatest of ease.

"But I haven't touched a drink and I haven't touched cheese since last fall," he said today. "The result is I've lost 20 pounds."

Joe figures, as every manager does, his pitching will tell the story this season. That Yankee pitching is just about as good as you'll find in the league. Thinking it over, Marse Joe rubbed that big square Irish jaw of his and decided he'd string along with Ruffing, Gomez and Monte Pearson as the nub of his staff. Who wouldn't?

"Then we'll get a fourth starter out of Wes Ferrell, Oral Hildebrand and Spud Chandler," he explained.

McCarthy is particularly high on his rookies, and is definitely sold on Joe Gallagher, the wallowing outfielder from Kansas City. Joe is a Buffalo boy. So is Marse Joe and Marse Joe has a lot of pride in his home town.

"That Gallagher," he pointed out, "hits as long a ball as you'll find around, and that's the kind of ball we play. With Charley Keller up from Newark, well—the outfield won't be in such a tough shape."

With Joe DiMaggio and Tommy Henrich fixtures in center and right fields, it happens Gallagher and Keller will battle George Selkirk for the left field daps. Then with Buddy Rosar around to help Bill Dickey with the catching chores (who said he needed help?) and a half dozen rookie pitchers showing promise—well, Marse Joe probably can spend all spring worrying about his diet.

## Fouling Success

MT. VERNON, Ill., Feb. 2.—Doxie Moore's debut in semi-professional basketball was a fouling success. The rule banishing a player for four personal fouls was waived, fortunately for Moore, former Purdue university athlete.

Moore, who coaches a High school team, had nine fouls called against him. He was fouled 10 times and made good on all attempts.

# TROTSKY SAFE IN EXILE HOME

## Stalin's Arch-Foe Ends Second Year of Exile In Mexico

MEXICO, D. F.—Leon Trotsky, arch-foe of Josef Stalin, peacefully completed another year of exile in Mexico—one of the few countries which is willing to harbor him.

It is now two years since Trotsky and his little, golden-haired wife, Natalie, landed amid the oil refineries of Tampico on the cold, misty day of Jan. 9, 1937. They had been secretly put aboard the tanker Ruth in Norway, which departed with sealed orders for "some port of Mexico." Only after Trotsky actually safely landed was it generally known in Mexico that Tampico would be the place of landing.

The precautions taken at that time to protect the life of the ex-war commissar of the Soviets were left under the direction of Gen. Jose Beltran, ex-military attache in Washington. It was Beltran who last May captured Palomas, the hacienda of Gen. Saturnino Cedillo, under the raiding plan President Lazaro Cardenas organized to isolate Cedillo before he had a chance to do anything.

To Rivera Home

From Tampico, Trotsky and his wife came directly to Mexico City and took up their residence at the Hotel de Rivera, wife of Diego Rivera. They have lived there ever since but the place has been considerably enlarged and "fortified."

A big garden next door was added to the estate, so that Trotsky can plant flowers and mow the grass like any American suburbanite. The whole place, however, is walled in. The front door has been bricked in, and only the rear door is used. A "mirador" or watchman's tower, has been built in front for use of the "inner guard," comprised of secretaries and faithful Trotskyists.

Outside are the two police booths, where there is a constant vigil.

The peaceful home at Coyocacan is as efficient an office as any author might desire. Trotsky has elaborate files and records. He keeps secretaries busy taking dictation in Russian, French, English, German, as well as in Spanish, which he has perfected since his arrival. One of the secretaries is Jean Van Heijenoort, a Frenchman with a Dutch name, who was with Trotsky in exile at Prinkipo, Turkey, where he learned Russian. Heijenoort came to Mexico from Paris via New York after Trotsky arrived. Other secretaries come and go, mostly from New York, New Haven, or other places in the United States.

One who has been here over a year is Joe Hansen, who has been connected with labor publications in the middle west.

Writing Life of Lenin

Trotsky works hard on his monumental life of Lenin, on magazine and newspaper articles. He is besieged with requests for visits and interviews, but grants few. "I am not a tourist attraction!" he once said this correspondent when a group from Springfield, Mass., asked him to arrange a short visit with him.

Although he keeps his movements quiet—both to avoid curious people, and for protection—Trotsky has traveled to many of the towns in the central part of Mexico. He has

been through Michoacan and Jalisco as far as Guadalajara; to Puebla; also to Cuernavaca and Taxco, the two towns which most American tourists invariably visit. He has also been hunting a few times.

He and Mme. Trotsky have been generally in good health, although they were much depressed over the death of their son, Leon Sedoff, in Paris last spring.

Communist leaders and Vicente Lombardo Toledano, head of the Mexican Workers' federation, have done their best to have him deported, but Cardenas has stood by his offer of hospitality.

## DR. F. M. EDWARDS' DISCOVERY FOR CONSTIPATION

### Benefits Nation of Sufferers!

COLUMBUS, OHIO: For over 20 years Dr. F. M. Edwards (widely known physician) successfully treated scores of patients for constipation and the headaches, lack of energy and mental dullness which often result.

This wise Doctor knew liver bile must flow freely every day into your intestines or fatty foods can't be properly digested and you may become constipated. So he kept this in mind when he perfected his famous Dr. Edwards' Olive Tablets.

Olive Tablets, being purely vegetable, are harmless, yet they assure gentle, thorough bowel movements and ALSO help stimulate bile flow. Test their goodness TONIGHT! 15c, 30c, 60c.

## "ENVOY EXTRAORDINARY"

by E. PHILLIPS OPPENHEIM

World-shaking events are not far off when Matilda, Countess of Matresser, meets her handsome bachelor son and heir, Ronald, soon after one of his long and mysterious journeys abroad. He chides her gently for hiring foreign servants. Sir Ronald (Lord Matresser) has but started a rest on his rich country estate when an unconscious man is found under suspicious circumstances near the Great Hall. Ronald's younger sister Ann introduces him to Mademoiselle Elizabeth Stamier, a beautiful Austrian who is her new companion.

### CHAPTER III

Then there was a sudden influx of the remaining guests. Alice, the elder daughter of the house, a

anything of that sort, wearing patent leather shoes, I must confess that I feel inquisitive."

"The doctor refused to take the matter seriously."

"I expect we shall find in the morning," he said, "that it is a case of temporary lapse of memory or something of that sort."

"Well don't let him go in the morning until you have communicated with me. I shall exercise my privileges as a magistrate in any case."

"I think you are quite right," the doctor agreed. "I certainly won't let him go in any case you have the right to help yourself to his name and address. . . . You are looking wonderfully fit, Matresser."

address of a bank in London."

He occupied himself holding a light to the cigarette to which she had helped herself.

"As a matter of fact," he reiterated, "it is true that my people are very little interested in my wanderings. My mother would very much rather I stayed at home and my brother-in-law, Stephen Hen-

nerley thinks it is the duty of every Englishman to be proclaiming his country's danger either from the hustings or from one of the Houses. Ann, little hussy, thinks I ought to stay at home and keep the house filled with amusing guests and Margaret and His Reverence are convinced that the kingdom of Heaven lies somewhere in the diocese of Norwich."

She laughed quietly. "Poor Lord Matresser! No wonder you are not encouraged to talk about your wanderings."

"You, yourself," he reflected, "are not altogether a stay-at-home."

"Explain that, please," she begged.

"Well, you entertained for your uncle when he was in Rome and your aunt was ill. Before that you traveled with him when he undertook a certain mission for his country. And that by-the-way brought

had suddenly collected about a hundred thousand tribesmen the work of twenty-five years would have been swept away in one whirlwind campaign and heaven knows how many lives lost. My uncle was there as a neutral. He had no definite authority behind him or if he had, diplomacy forbade his using it. He is not one who takes risks."

"Those days are past," Matresser replied, "but it is queer to meet you again, Mademoiselle."

"Because then the world was more or less in peril. Today one hears—I am no politician—one understands that there are even greater dangers still threatening."

"Tell me about them," she begged.

He shook his head. "It is I who should ask you for news," he replied. "I have been away for over two years. I have not even seen a copy of The Times for many months."

comely woman of early middle age, married to Stephen Hennerley, a barrister and rising member of parliament, first made her appearance. Her husband followed with the Dean. The local doctor a good sportsman but of the rougher type, brought up the rear. During the few minutes general conversation, Matresser found opportunity to carry his cocktail over to where the doctor was standing on the outside of a little circle.

"Tell me about the fellow who was picked up in the field of turnips," he begged after they had shaken hands. "What's wrong with him? Who is he and how did he come to be wandering about there on foot? I didn't know that you were dining tonight so I told Humphreys to call round and bring you up after dinner if you could manage it."

"I can soon tell you all I know," the doctor replied. "What he is suffering from is slight concussion and super exhaustion. I had to pump adrenalin into him before I could get him to mumble even a word. I left him asleep. He should be able to talk all right by the time I get back."

"Is he English?"

"I really cannot tell you a thing about him," Andrews admitted frankly. "We didn't go through his pockets, naturally when we took his clothes off. It didn't seem necessary so long as we were pumping the life back into him and there seemed no complications."

Matresser finished his cocktail and set the glass down.

"Well," he remarked, "I don't think I am a person cursed with undue curiosity but when a man who is a stranger to everyone is picked up in one of my root fields, through which there is no right of way or

Irresponsible travel seems to agree with you."

Matresser smiled. There was something so boyish about that smile that it might almost have been called a grin. It was followed by a few seconds of gravity.

Matresser laid down The Times and rose to his feet as Mademoiselle Stamier came a little doubtfully into the small reception room.

"I am afraid Mademoiselle," he said, "that you see your doom. The Dean and his wife have engaged in a desperate struggle of bridge with my sister and brother-in-law and Ann's badminton with the doctor seems to be a nightly affair. It is clearly your duty to come and talk to me."

She moved smilingly towards the divan where he had been seated.

"To tell you the truth," she confessed, "I came to see whether I was wanted. I drove my little car into Norwich this afternoon and the wind coming back well you knew what it was for yourself."

"You have a headache?"

She nodded but nevertheless she sank into the divan and surrounded herself with cushions.

"I expected to find the whole family at your feet," she said, "listening to your exploits."

"I am afraid," he complained, "my people don't take very much interest in my travels."

"That may be your fault," she pointed out. "Ann thinks you are very secretive. She has no address, however urgently she may wish to communicate with you, except the

## Stowaway

NEW LISBON, Ind. — Stormy weather drove birds of a different feather together here.

Mrs. George Van Buskirk saw a robin fly away from a fence near her farm home and head for the chicken house in a stiff wind.

Later she went out to gather eggs. Under the wings of a nesting hen she found the robin huddled.

## Man-Eater

LOS ANGELES—G. Harold Janeway has three stitches in his wrist to prove he was bitten by a man-eating shark in a hotel lobby.

The 25-foot fish was a skeleton on exhibition. Janeway stuck his hand into its mouth. The jaw snapped shut and seven rows of sharp teeth did their work.
